VIEWS OF THE PRESS.

The leading papers of the country indulge in Tariff of 1846, and of the measures generally of in the press by Messrs. Harper & Brothers: the Democratic party, adds:

"The great misfortune of Scott was, that he was brought out and petted by the Seward clique. The people feared that, it elected, he would be too much under the influence of that dangerous trotion, and obliged to distribute among them his largest favors. The people would not permit this. Had Mr. Webster or Mr. Fillmore been the Whig candidate, or had Gen. Scott been brought forward in a less offensive manner, the result might have been different, at least in degree. We trust, however, that what has been done will prove to be for the advantage of the country, in all its important interests. We believe that Mr. Pierce will administer the government wisely and well. He belongs to a good old stock—staid, reliable and patriotic. He will resistextremes. He will be a President for the whole country, and for all classes of its inhabitants. He will do his duty faithfully and fearlessly, according to the best of his judgment, which we believe is very sound."

The New York Times, Whig, says:

taken the stand required by its position as the great Republic among the nations of the earth; and we anticipate in this direction, therefore, some decisive advantages from its ascendency. We shall certainly be glad to welcome, at the hands of any administration, Democratic or Whig, a more energetic vindication of American rights, a more cordial recognition few years past"

The Express, also Whig, says: "Gen. Pierce is elected, it may be said, by acclamation. Gen. Winfield Scott is not so much defeated as routed. The hitherto invincible soldier has at last met his Waterloo. It is not so much a defeat of

Mr. Webster and Mr. Fillmore were rejected, mainly because they had given offence to the anti-slavery Whige of the Northern Whig party, while General Scott's availability, apart from his gunpowder capital, consisted almost entirely in his good political standing with Seward and his allies.

The Bemocratic party have now a splendid career open before them, and if they fail to appropriate it to the proper advancement of all the great interests of the country, domestic and foreign, they will be held to their responsibility in due season. But we shall look to Gen. > For the Standard. PARTIZAN NEUTRALITY.

For the bold and manly avowal of sentiment: through the medium of the press I have the utmost respect, even when those sentiments are in opposition to my own; but when a public journal, under the garb of neutrality, seeks to favor party or shows the chagrin of its conductors over the defeat of their party, it deserves to be rebuked.

Under the editorial head of the "Weekly Post" of November 6th is an article which would have looked quite natural in the columns of the Register -indeed its similarity to one in the Register of the same date presents a curious coincidence, or else shows that the editors of those two journals had been talking together, and that each colored his article from the hue of that conversation. Both seem to be horrified at the result of the late presidential election : and the "Post," after saying the election is over, exclaims from the depth of its despondency, " How many more shall we have ?" and after dealing out a few " ifs," comes to the sage conclusion that the citadel of our liberties is " in the heart of the masses," and that this fortress needs to be strengthened with more intelligence; drawing the inference that the election of Gen. Pierce is the result of ignorance. The masses need more light, and in very pathetic italies it cries out in its despair, " If we do not put forth more efforts in this direction, there can be no reasonable hope, our doom is sealed!" As much as to say : The election of Gen. Pierce proves we are a benighted nation, a people incapable of self-government, and unless we speedily become enlightened we shall lose our liberties-perhaps never see another presi-
